# Vission

Our vision for Batic is to revolutionize the digital ownership landscape by providing a seamless and accessible platform for users to engage with non-fungible tokens (NFTs). We aim to empower creators and collectors, fostering a thriving ecosystem where digital assets are securely owned and traded while promoting sustainability through our unique token burn mechanism.

# Mission

At Batic, our mission is to democratize NFTs, making them inclusive for everyone. We're dedicated to creating an innovative NFT marketplace on the Polygon blockchain that is user-friendly, efficient, and environmentally conscious. Our commitment to transparency and community involvement drives us to build a sustainable and vibrant NFT community.

# What is BATIC NFT

BATIC NFTs are digital assets minted and traded on our platform, backed by the security and efficiency of the Polygon blockchain. Each BATIC NFT represents a unique, verifiable digital item, which could be anything from art and music to virtual real estate and in-game items. What sets BATIC NFTs apart is our burn mechanism, designed to reduce token supply and create a deflationary system, adding inherent value to the tokens and the NFTs they represent.

# About Us

Batic is a passionate team of blockchain enthusiasts, artists, and tech innovators who came together to bring our vision to life. With a diverse background in cryptocurrencies, art, and technology, we're committed to fostering a supportive and creative NFT community. We believe in the power of NFTs to transform the digital world, and we're dedicated to achieving this transformation while being environmentally conscious through our unique token burn mechanism.

# Batic Roadmap

2023

- Development (Token, Websit)
- White Paper Satup
- Social Media Links
- Strategic Plan

2024

- Worldwide marketing campaign.
- Create links with international influencers.
- 5000+ holders.
- Coingecko Listing.
- Coin Market cap listing.
- App (Android, IOS).
- LIQUIDITY Pool 1,00,000\$
- DEX.

2025

- 25000 Holders.
- Start working on NFT market place.
- Start working on metaverse.
- MFT exchange Development.
- Gaming
- Advanture
- Events
- NFT

2026

- 50000+ Holders.
- Launch MFT Pay.
- Launch NFT Market Place.
- Token Listing On Exchange.

# Frequently Asked Questions

## **Q: How does the token burn mechanism work?**

**A:** Our token burn mechanism involves periodically reducing the supply of BATIC tokens. This deflationary model is designed to increase the scarcity and value of the remaining tokens.

## **Q: What distinguishes BATIC NFTs from other platforms?**

**A:** BATIC NFTs benefit from the security and scalability of the Polygon blockchain and are supported by a deflationary token model, adding inherent value to both the tokens and the NFTs they represent.

# Frequently Asked Questions

**Q: How can I create and sell my NFTs on Batic?**

**A:** We offer a user-friendly minting and trading platform. Simply create an account, mint your NFT, and list it for sale. We prioritize user accessibility and low transaction fees.

**Q: Is Batic environmentally friendly?**

**A:** Yes, we're committed to environmental sustainability. Our token burn mechanism helps reduce the carbon footprint associated with blockchain transactions.

# Frequently Asked Questions

**Q: How can I get involved with the Batic community?**

**A:** Join our social channels, participate in community events, and engage with fellow NFT enthusiasts. We value community involvement and encourage your active participation.
